37	Confindustria Veneto Est	Padova	<a href="https://www.confindustriavenest.it/">https://www.confindustriavenest.it/</a>				As of 1 January 2023, entrepreneurs from the provinces of Venice, Padua, Rovigo and Treviso have joined forces to form Confindustria Veneto Est, a large network organisation with 5,000 member companies. In terms of size, it is the second largest territorial association in the Confindustria system, in which manufacturing, services and construction companies participate. The objective of this large and innovative association project is to help support the local territorial system in the challenge of the Fourth Industrial Revolution. Markets, technology, robots, artificial intelligence and the internet of things, together with internationalisation and reshoring are changing factories, work and society in Veneto. The Mission of Confindustria Veneto Est is both to support companies in this great transformation and to urge an industrial policy - regional and national - capable of effectively supporting companies in their change.
